

Working Student (m/f/d) - Corporate Venture Capital

 Munich

About Fluxunit

Fluxunit is the corporate venture capital fund of the ams OSRAM group. Backed by the world leader in photonics and optical solutions, we invest in innovative products and technologies that have the potential to impact ams OSRAM's current and future business. We are continuously looking for ambitious entrepreneurs with ground-breaking ideas that want to improve everyone's daily life with innovative technologies in sensing, illumination, visualization, computation and related fields. We take an active role in our portfolio companies and leverage ams OSRAM's resources beyond the pure investment to help founders scale up and turn innovative ideas and concepts into commercial success. For the reinforcement of our team we are looking for an entrepreneurial-driven person who is passionate about technology and wants to help us identify successful start-ups and grow our portfolio.

Once here

You will support us for 2 days per week for at least 6 months. During this time you will be a part of our investment team and get insights into all aspects of the Venture Capital process. You will take over responsibility for own projects and support the investment team in various areas:

- Conduct market and technology analyses and identify attractive technology startups
- Prepare and take part in meetings with founders/ managers of potential investment targets
- Develop investment hypotheses, financial models as well as exit scenarios
- Assist investment managers in commercial/financial due diligence on potential investments
- Support creating investment memos for the Investment Committee consisting of top executives
- Support the investment team in all aspects of the daily operations of a leading VC fund

We offer a competitive salary, the possibility to work from home, the flexibility to align your studies with our day-to-day operations and, of course, excellent coffee! ☺

Requirements

- Bachelor or Master student with good academic track record, preferably in (Electrical) Engineering, Physics or other Natural Sciences, Computer Science or (Technical) Business Administration
- Entrepreneurial spirit and passion for new, innovative business models, technologies and VC
- Capacity to quickly dive into new technologies, challenge assumptions and develop own hypotheses
- Enjoy working in a dynamic and interdisciplinary team with start-up character
- Structured, independent and responsible way of working
- Strong MS-Office skills
- Fluent in German and English
